

HEARTLAND PAYMENT SYSTEMS® EXTENDS
AGREEMENT WITH TRANSMODUS THROUGH 2015

National payments processor and online check management platform provider continue their relationship aimed at remote deposit capture and check management market leadership

Princeton, NJ — November 9, 2009 — Heartland Payment Systems®, one of the nation's largest payments providers, is extending its contract with transmodus, a technology leader in remote deposit and check management automation utilizing service-oriented architecture. The contract extension runs through 2015.

"This extension with transmodus affirms our ongoing commitment to delivering the most state-of-the-art and feature-rich remote deposit capture and check management services to our clients," stated Sanford Brown, Heartland's chief sales officer. "We have worked closely with transmodus over the past few years to provide a higher level of check processing efficiency that helps businesses operate more efficiently. We look forward to continuing that and aggressively expanding our collective positions in the remote deposit capture market with the outstanding level of functionality and service our alignment and the Heartland Express Funds™ suite of products offers our customers, software and bank partners."

Express Funds is powered by transmodus and uniquely encompasses the scale and features to serve businesses of all sizes. Express Funds also supports banks looking to increase their adoption of remote deposit capture particularly in the small and mid-sized business market — as well as software partners who want to deliver remote deposit capture through their own user interfaces.

"We are pleased to extend and strengthen our relationship with Heartland. There is a vast market that is not leveraging electronic check management, and transmodus' services aligned with Heartland's sales and support offers a compelling value proposition," concluded Robert "Jay" McShirley, transmodus' chief executive officer.
